As they venture deeper into the Savage North, the survivors encounter a myriad of threats. Jax, the brilliant engineer, keeps their equipment running and provides much-needed shelter. His intelligence and creativity are crucial to their survival, but his arrogance can sometimes lead to dangerous mistakes.

Finally, there is Anya, the compassionate healer. Her ability to tend to the sick and injured is vital to the group's well-being. However, her pacifist nature and desire to protect the innocent can clash with the harsh realities of the post-apocalyptic world.
